

THANK YOU FOR PURCHASING A PROBLEM SOLVERS PEDAL-TO-TAP-HANDLE ADAPTER

INTENDED USE

The Problem Solvers Pedal-to-Tap-Handle Adapter allows cycling enthusiasts to attach their favorite bicycle pedal(s) to their favorite beverage-dispensing tap handles.

NOTE: Adapter is not a bicycle part. Do not use this adapter on a bicycle or with other bicycle parts. Do not use this adapter with a pedal for any purpose other than as directed.

COMPATIBILITY

The Problem Solvers Pedal-to-Tap-Handle Adapter is compatible with standard 3/8" taps and accepts 9/16" pedal spindles. Adapters marked with an "L" are compatible with left-hand-threaded pedals. Adapters marked with an "R" are compatible with right-hand-threaded pedals.

ASSEMBLY INSTRUCTIONS

1. Verify that you have the correct adapter for the pedal you're using.

CAUTION: Do not attempt to install a right-side pedal into the left-side adapter or vice versa. Doing so could permanently damage the adapter AND pedal. Left-threaded pedals (threads sloping upward to the left) go to adapter marked with an "L." Right-threaded pedals (threads sloping upward to the right) go to the adapter marked with an "R."

2. Thread the pedal into the adapter by hand. Use of a wrench is not necessary.
3. Thread the assembled pedal and adapter onto the tap. Again, it is not necessary to use a wrench.
4. Pour.

WARRANTY PROCESS

If you and your shop think your Problem Solvers product is worthy of a warranty inspection, please return the product to the original place of purchase, accompanied by a sales receipt. For complete warranty information, visit problemsolversbike.com/safety
