

Thanks for choosing Problem Solvers Decksters™ clip-in pedal adapters. Decksters work with Time® ATAC, Crank Brothers® Eggbeater, Shimano® SPD, Wellgo®, and Ritchey® off-road style pedals. Please read the instructions completely before attempting installation. Use the correct cleat (sold separately) for the brand of pedal according to each manufacturer's specifications.

PLEASE USE THE DIAGRAMS ON THIS PAGE FOR REFERENCE.

WARNING: Read these instructions completely before beginning installation of this product. If you lack the knowledge or tools to perform installation, please have your local professional bicycle mechanic perform the installation. Improper installation can result in loss of control or damage to the bicycle and/or serious injury or death to the rider.

Clip-in pedal systems have an inherent release mechanism that allows a quick release of clipless shoes by twisting the shoe. Twisting your foot while it is on a Deckster may cause it to release, just as a clipless shoe would. Jumping, stunt riding, downhill, freeriding, BMX riding, and/or aggressive riding could result in premature release of the Deckster from the pedal, potentially causing serious injury.

Bike shop employees please note, you must warn the customer of the release mechanisms inherent in this clipless pedal system if using the Deckster for test rides on bicycles.

Installation of the plastic blocks is absolutely necessary for use with Time ATAC or Crank Brothers Eggbeater pedals. Failure to install plastic blocks could cause premature release of platform from pedal and result in injury.

TOOLS:

4mm hex wrench

CLEAT ASSEMBLY FOR TIME AND CRANK BROTHERS

PEDALS:

- Set cleat plate into holes on top of Deckster.
- Set cleat on bottom of Deckster.
- Lube and install both cleat bolts, torque to 4-5 Nm (35-44 in-lbf) with 3mm hex wrench
- You must install the plastic blocks with Time and Eggbeater pedals. Failure to do so could result in premature release of Deckster™ from the pedal and potentially cause serious injury. Place bolts in plastic block so that each bolt head sits flush into the recessed side of block. Fasten to bottom of Deckster, tightening to 3 Nm (26 in-lbf.) with 3mm hex wrench.

CLEAT ASSEMBLY FOR SPD-COMPATIBLE (SHIMANO, WELLGO OR RITCHEY) PEDALS:

- Set cleat plate into holes on top of Deckster.
- Set cleat on bottom of Deckster.
- Insert cleat bolt washer into recessed cleat area.
- Lube and install both cleat bolts, torque to 4-5 Nm (35-44 in-lbf) with 3mm hex wrench.
- Use of plastic blocks is not necessary for SPD-type pedals.

Time ATAC or Crank Brothers Eggbeater assembly

Shimano, Wellgo or Ritchey assembly

SPD® is a registered trademark of Shimano Industrial Company Ltd. ATAC™ is a registered trademark of Time Inc. Eggbeater™ is a registered trademark of Crank Bros Inc. Wellgo® is a registered trademark of Wellgo Inc. Ritchey® is a registered trademark of Ritchey Design Inc.

TO INSTALL DECKSTER ON ALL PEDALS:

- With pedal properly installed on the bike, place Deckster onto the pedal with proper forward cleat direction.
- Gently step down onto Deckster until the cleat clips into place.
- Once securely in place, we recommend tightening the cleat release mechanism to its tightest setting on SPD-type pedals.

TO REMOVE DECKSTER FROM ALL PEDALS:

- While pedal is still installed on the bike, loosen cleat release mechanism to its loosest setting on SPD-type pedals.
- Wrap a shop rag around platform to protect your hands. Then twist the platform to release.
- Reset cleat release mechanism to desired tension on SPD-type pedals.

LIMITED 2-YEAR WARRANTY

This Problem Solvers product is warranted against defects in materials and workmanship for two (2) years, from the original date of retail purchase by the consumer, subject to the limitations detailed below. This limited warranty is expressly limited to the repair or replacement of the original product, at the option of Problem Solvers, and is the sole remedy of the warranty. This limited

warranty applies only to the original purchaser of the Problem Solvers product and is not transferable. In no event shall Problem Solvers be liable for any loss, inconvenience or damage, whether direct, incidental or consequential or otherwise resulting from breach of any express or implied warranty or condition, of merchantability, fitness for a particular purpose, or otherwise with respect to this product except as set forth herein.

This warranty does not cover the following:

- Damage due to improper assembly or follow-up maintenance or lack of skill, competence or experience of the user.
- Products that have been modified, neglected, used in competition or for commercial purposes, misused or abused, involved in accidents or anything other than normal use
- Damage or deterioration to the surface finish, aesthetics or appearance of the product
- Normal wear and tear
- Labor required to remove and/or refit and re-adjust the product within the bicycle assembly

This warranty gives the consumer specific legal rights, and those rights and other rights may vary from state to state.
